LifeSmart® Simply Brilliant	PRODUCT INTRODUCTION  LifeSmart's Polar Switch adopts extremely low power consumption technology, worksindependently without an external power. It supports single live line, null and live line and lowdirect current, and also can be used as passive switch. It eliminates the flicker when a traditional single live line switch is connected to a low power light bulb, providing an easy solution for installation and use.	ILLUSTRATION	WIRING PLAN	SPECIFICATIONS           Size         120*70*35mm           Weight         103g (1 way) / 112g (2 way) / 123g (3 way)           Operating voltage         90V-250V AC or 5V-30V DC           Operating temperature         -5~45°C           Operating humidity         5~90%           Communication protocol         CoSS           Wireless distance         200m (open field)
	LifeSmart's Polar Switch also supports two-way communication and mobile control. You can manage it through our app whenever and wherever. It can be paired with other smart devices such as Cube Motion Sensor and Cube Door/Window Sensor, to trigger Smart Scenes like light on when you come home and lights out when you leave the house. INSTALLATION	SET UP	WARRANTY DESCRIPTION	ATTENTION	DECLARATION

LifeSmart's Polar Switch needs to be paired with Smart Station to join the smart system.

Bring the power back on, operate the switch to test if it runs 1) After configuration of the smart station, click "+" on the app home page, then click "Add Device", select "Polar Switch", enter paring mode.

(6) Close the switch panel and make sure the clips are in the right

place on both sides, or it might cause bad contact.

correctly.

- Follow the instruction on the app to finish paring.
  - ③ If a time-out error occurs, please repeat step 1-3 until it's successfully paired.
  - 4 Polar Switch has features such as timer turn on/off and interaction with other smart devices. Please follow the instructions on the app to discover.

Thank you for purchasing this LifeSmart product. In order to protect your rights, please read the following content carefully: The warranty period of our company's products is one year from the date of purchase or longer if local laws impose a longer minimum term, in which case the minimum term is the warranty period. During the warranty period, any faults caused by the product itself or for quality problems that arise under normal usage, LifeSmart will provide a free

## correctly and screw on both sides firmly.

(1) Cut off the power leading to Polar Switch and make sure that the

2 Take out the switch, stretch to the edge of the panel, loose the clips and separate panel and the switch unit.

3 Install the wires according to the diagram, screw firmly. If there's intension for saving one line for smart control (eg. turning on all other smart switches at the same time), you should at least have one line out of L1, L2, L3 connected to an electric appliance. 4 Neatly arrange the wires in the switch box, then place the switch

⑤ Place the battery into the battery box.

INSTALLATION

wiring is not charged.
